World Federation of Democratic Youth

Worldwide Petition
TAKE IT BACK, NOW!

We, the undersigned, vehemently protest against the arbitrary judicial actions taken by the Government of the Czech Republic aiming to repeal the "civic association" status of the Communist Youth Union - KSM.

These actions, rooted on political and ideological discrimination, can only be considered as part of an unjust, anti-democratic and anti-communist campaign, that seeks to restrict the freedom of association and expression of the Czech Republic's people and, in particular, of its youth.

The initiatives against KSM are an inadmissible form of political and ideological manipulation which, in targeting the Communists attempt once again to criminalize communist ideology and any social action demanding implementation of the legitimate aspirations of the youth regarding peace, education, work, solidarity, a clean environment and progressive culture for all.

In effect these measures directly undermine a full range of liberties and democratic guarantees for the people of the Czech Republic. This action by the Czech Government, recently made possible by the Czech courts, aims to give new impetus to the various discriminations targeting all ready the communists and whitewashing the crimes carried out by the supporters of fascist and Nazi ideology and policy.

We express our full solidarity with the Communist Youth Union - KSM, with the communists and other progressive minded people of the Czech Republic in their struggle in defense of elementary democratic rights and liberties.

We demand the immediate end to the attacks and direct steps to restore basic democratic liberties for the Czech youth and the free action of the Communist Youth Union - KSM.
