Against the
ban of the
Czech
Communist
Youth
Union
(KSM)

TAKE IT BACK, NOW!

NO to the ban of KSM!

Two years ago the Czech Government decided to ban the Czech Communist Youth Union (KSM) and all its activities. Now they want to implement this decision and make KSM illegal.

This is an antidemocratic decision as it condemns one youth organization because it struggles for a peaceful and fair world, in opposition to the interests of economicism and militarization of the Czech Government, side by side with the European Union. This decision comes from a wider orientation of imperialism to persecute all those who struggle against it, and similar situations have been happening throughout the World, because imperialism knows that it needs to destroy democratic rights in order to survive the strength and will of the youth and peoples.

This is not a matter only of the Czech people, this is a matter of all those young people who struggle for peace, democracy and social justice in their countries, and this why the struggle against this measure should be seen as a priority of all young people of the world!

We don't want imperialism wants to impose, with war and exploitation, we demand a world of democracy, social justice, peace solidarity and friendship!

Therefore, in solidarity with the Czech communists, we demand the Czech Government to take back its decision to ban KSM: NOW!

TAKE IT BACK, NOW!

Imperialism cannot ban the future!

In solidarity with persecuted Young Czech Communists we demand from the Czech Government to immediately withdraw its decision to ban KSM!
