### **To the Israeli Ambassador**

Daniel Megiddo,

Dear Ambassador,

The Connolly Youth Movement, as a member of the World Federation of Democratic Youth, and on the request of the Lebanese Democratic Youth Union has organized this demonstration along with other progressive groups and individuals in this country to express our condemnation at the actions of the Israeli government.

Individuals and groups like us, who care for human rights and democracy, around the world today are showing support and solidarity to the victims of your states aggression and violence, in breach of both international law and ethical practice.

We call on your government to respect the sovereignty of states, as you would have your states respected, and to work with the international community and within international law to solve the many outstanding issues.

The violence of your state only serves to breed the violence and hatred against your state and your people. Dialogue, and support for democracy and social justice, is the correct tactic for a global war on terrorism. State terrorism will continue to breed and ignite race and religious hatred in a never-ending cycle of violence.

Listen to what the people around the world today are saying. End the occupation and violence against the Lebanon and Palestine.

Gareth Murphy  
Connolly Youth Movement
